

## Activity 12.1

# Integration

### Collecting objects to integrate into documents

For this activity you have to produce a set of objects for one of the following:

- ☀ A poster for a sporting event
- ☀ A web page for a virtual tour of your neighborhood
- ☀ A web page which is an introduction to your family

You only need to collect the objects and store them in a suitable folder and subfolder structure. Do not produce either the final graphics or the web page/poster.

#### What you need to collect

You need to collect objects such as:

- ☀ Text which is typed into word-processing software and then saved or copy and pasted from the Internet.
- ☀ Pictures/Photographs.
- ☀ Plans/Maps/Diagrams.
- ☀ Symbols/Signs/Logos
- ☀ Patterns/Textures for backgrounds/Pictures
- ☀ Examples for suitable fonts.
- ☀ Unusual colors or effects you would like to use.

Note: You only need to include examples from the above list if they are appropriate to your design.

#### Part two: Create a Poster or Web site.
